

# Summer Sprinkler Special !!

Ride around any neighborhood and you can easily see which homes have automatic sprinklers and which don't. With this heat and drought, hand sprinkling is just not able to keep up with demand. If you would like to have a beautiful, green lawn all summer, without lugging around hoses and fiddling with sprinkler gadgets, here's your chance! We're offering the biggest discount possible so that everyone who has been considering the transition to in-ground sprinklers can afford to make the move now!

Here are the prices for Morris County installations:

## Sizzling Summer Sprinkler Special

# of Zones	Regular Price	Special Price	Saving\$
6 Zones	\$2,850	\$2,400	\$450
9 Zones	\$3,850	\$3,400	\$450
12 Zones	\$4,850	\$4,300	\$550

We'll visit your property and recommend the appropriate number of zones. Then, you can decide. Next thing you know, you have sprinklers! While Steve's there, ask him about a firepit or fireplace. You will find a fantastic discount for firepits on our website

This offer includes: the designated number of complete sprinkler zones, attached to a regulation PVB backflow device, controlled by an electronic control box. The sprinklers will be installed at the proper depth and tested by our certified backflow tester. This project will likely require permits, the procurement of which is the responsibility of the homeowner. Some other conditions are listed below:

- The customer must supply a 1" water tap, installed by a licensed plumber.
- The installation includes a PVB Backflow device (if an RPZ Backflow device is necessary, it will be an additional \$150).
- The customer must obtain all necessary permits.

**Please contact us today to get on the schedule for an estimate.**
